### WHAT IS THIS PRODUCT?

<b>Type</b>	The Fund is a sub-fund of Plurima Funds, an open-ended umbrella unit trust established as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), authorised by the Central Bank of Ireland.
<b>Objectives</b>	<ul style="list-style-type: none"> <li>The investment objective of the Sub-Fund is to deliver a superior risk-adjusted return to investors over the medium to long term.</li> <li>The Sub-Fund aims to achieve this investment objective by taking long and short positions in a diversified portfolio of equity and equity-related securities. The Portfolio Manager analyses and ranks a universe of stocks traded on the major global exchanges. The strategy seeks to profit from the exposure to stock-specific returns rather than the returns relating to the general movement of equity markets.</li> <li>The Fund will pursue a 'long/short' strategy, the purpose of which is to take long positions in stocks that are expected to appreciate and short positions in stocks that are expected to decline. A long/short strategy seeks to minimize market exposure, while profiting from stock gains in the long positions and price declines in the short positions. Long positions may be taken directly or indirectly (through the use of financial derivative instruments) and short exposure will be taken synthetically through the use of financial derivative instruments.</li> <li>The Fund may utilize financial derivative techniques and instruments for investment purposes and/or efficient portfolio management and/or to protect against foreign exchange risks. These techniques and instruments shall comprise futures, options, forward currency contracts, equity swaps on single securities, equity baskets and equity indices and contracts for differences (swaps). These instruments may be exchange traded or over-the-counter.</li> <li>The Fund may invest in collective investment schemes provided however that the Fund may not invest more than 10% of net assets in aggregate in collective investment schemes.</li> <li>The Fund may be exposed to currencies other than US dollar through investment in equity and equity-related securities nominated in such currencies. However, such currency exposures will generally be hedged and not exceed 10% of Net Asset Value.</li> <li>This fund is categorised as Article 8 SFDR. The fund promotes environmental or social characteristics, but does not currently commit to investing in sustainable investments.</li> <li>The Fund is actively managed in reference to the ICE BofA US Dollar 3-Month Deposit Offered Rate Constant Maturity benchmark (or equivalent benchmark in the currency of the share class) by virtue of the fact that the relevant Performance Fee Benchmark is taken into account in the calculation of performance fees payable to the Manager. However, the relevant Performance Fee Benchmark is not used to define the portfolio composition of the Sub-Fund or as a performance target.</li> <li>This Unit Class does not distribute income. All income is reinvested.</li> <li>This Unit Class is priced in USD.</li> <li>You may redeem your Units in the Fund on every Business Day. Please refer to the Prospectus for further information, available at <a href="http://www.egifunds.com">www.egifunds.com</a>.</li> </ul>
<b>Intended retail investor</b>	The Fund is intended for retail investors, professional clients and suitable counterparties with knowledge and/or experience of these types of products and with the ability to bear losses up to the amount invested in the Fund (see "How long should I hold it and can I take my money out early?").

**Insurance benefits and costs**

The Fund does not offer any insurance benefits.

**Product Term**

The Fund does not have a fixed term of existence or maturity period.

**WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?****Risk Indicator**

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 3 out of 7 which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the Fund to pay you. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund.

**Be aware of currency risk. The currency of this share class may be different from that of your country. As you may receive payments in the currency of this share class and not that of your country, the final return will depend on the exchange rate between these two currencies. This risk is not considered in the indicator shown above.**

For a detailed description of the risks incurred in holding this Fund please refer to the Prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

**Performance Scenarios**

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product, which may include input from benchmark(s) / proxy, over the last ten years. The stressed scenario shows what you might get back in extreme market circumstances. Markets could develop very differently in the future. The investment scenarios assume that you invest USD 10,000.

Investment Scenarios		1 year	5 years
Stressed scenario	What you might get back after costs	5303.26 USD	6047.28 USD

	Average return each year	25.12%	18.13%

**WHAT HAPPENS IF EUROPEAN AND GLOBAL INVESTMENTS LTD. IS UNABLE TO PAY OUT?**

The assets of the Fund are held in safekeeping by its depositary, CACEIS Bank, Ireland Branch (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations).

**WHAT ARE THE COSTS?**

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself and of the investment options, for three different holding periods. They include potential early exit penalties. The figures assume you invest USD 10,000.00. The figures are estimates and may change in the future. The costs for the investor vary on the basis of the underlying investment option(s) chosen.

## Cost over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment 10,000.00 USD Scenario	If you cash in 1 year	If you cash in 3 years	If you cash in 5 years
Total costs (USD)	213 USD	639 USD	1066 USD
Impact on return (RIY) per year (%)	2.13%	2.13%	2.13%

The table below shows:

## Composition of costs

Incidental costs	Performance Fee	0%	The impact of the performance fee (if any).
	Carried interests	N/A	The impact of carried interests (if any).

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

### Recommended holding period: 5 years

The recommended holding period (RHP) has been calculated in line with the investment strategy of the Fund and the time frame in which it is expected that it will be possible to achieve the investment objective of the Fund. Any investment should be considered against your specific investment needs and appetite for risk. European and Global Investments Ltd. has not considered the suitability or appropriateness of this investment for your personal circumstances. If you are in any doubt about the suitability of the Fund to your needs you should seek appropriate professional advice. Details of dealing frequency can be found under "What is this product?". You may receive less than expected if you cash in earlier than the RHP. The RHP is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels. Please see the "What are the costs?" section for details of any exit fees.

## HOW CAN I COMPLAIN?
